# CURTIN MALAYSIA

*Your Strategic Talent Partner  
at the Heart of ASEAN*

## Connect with Future-Ready Graduates at the Curtin Malaysia Careers Fair

Curtin University is Western Australia's largest and most globally connected university, with campuses in Australia, Malaysia, Dubai, Mauritius, Singapore and Sri Lanka, and partnerships with over 130 institutions worldwide. Ranked among the top one percent of universities globally (Academic Ranking of World Universities 2024) and 183rd in the QS World University Rankings 2024, Curtin delivers high-impact research, world-class teaching, and real-world learning grounded in industry needs.

## Your Gateway to Skilled Talent

As Curtin's earliest and largest global campus, Curtin Malaysia gives you access to a diverse pipeline of career-ready graduates from across Malaysia and the region. For over 25 years, we have been a hub of academic excellence, innovation, and industry collaboration in Sarawak.

Our students benefit from a globally recognised education shaped by Curtin's 'Triple-I' curriculum, focusing on Industry Engagement, Intercultural and Indigenous Awareness, and Interdisciplinary Learning. With programmes in engineering, business, science, humanities, IT, media, and more, our students graduate equipped with relevant skills and real-world experience.

## Why Connect with Curtin Malaysia Graduates?

- **Workforce-Ready:** Our students are trained in critical thinking, project-based learning, and real-world problem solving.
- **Globally Minded, Locally Grounded:** They bring international perspectives and local understanding, ideal for today's fast-changing job market.
- **Industry-Focused:** From internships and research collaborations to capstone projects, our students are embedded in real business challenges.

## Widening the Talent Pool: A Community-Focused Careers Fair

In line with Curtin Malaysia's strong commitment to community engagement, the Curtin Malaysia Careers Fair is open not only to Curtin students and graduates, but also to students and alumni from other institutions of higher learning in Miri and surrounding areas.

By participating, you will reach a broader talent pool across northern Sarawak - giving your organisation access to diverse candidates from various academic backgrounds and disciplines.

## Opportunities for Employers

### Join us at the Careers Fair to

- Recruit for internships, graduate roles, and full-time employment
- Promote your brand to a diverse, skilled and motivated audience
- Engage in career talks, panel discussions, and employer showcases

# Employers' Choice Award

## a testament to industry confidence in Curtin graduates

Miri – 3 May 2025 – Curtin University Malaysia (Curtin Malaysia) has once again proven its excellence in graduate employability by securing the Employers' Choice Award 2025, following the National Graduate Employability Index (GE Index) survey conducted by Talentbank, marking a remarkable third consecutive win in this prestigious national accolade.

The award was presented by Ahmad Munir Akram Ahmad Faiz, General Manager of Human Capital Investment, Group Human Resources Management at PETRONAS, and received on behalf of Curtin Malaysia by Interim Pro Vice-Chancellor, President and Chief Executive Professor Vincent Lee at an official ceremony held at EQ Kuala Lumpur on 23 April, officiated by Deputy Minister of Higher Education Datuk Ts. Mustapha Sakmud, and attended by top industry leaders and academic stakeholders.

This triple triumph cements Curtin Malaysia's reputation as a preferred talent source among leading employers, reaffirming the university's commitment to producing graduates who are not only academically accomplished but also immediately valuable in the workplace.

"This award reflects the industry's confidence in our graduates," said Professor Lee. "For three years in a row, employers have told us that Curtin Malaysia students stand out, not just on paper but in performance. It validates our mission to deliver education that meets industry needs, through practical learning, strong industry linkages, and globally relevant curricula."

Curtin Malaysia's performance in the Talentbank Graduate Employability (GE) Index survey – a benchmark developed in collaboration with key employers like PETRONAS, Maybank and Nestlé – has consistently outshone national averages since the index's launch in 2023. This year, the university retained top honours in Chemical Engineering and added a new discipline win in Occupational Safety and Health, demonstrating its cross-sectoral impact.

The recognition brings more than just prestige. It enhances Curtin Malaysia's visibility among top recruiters, strengthens industry partnerships, and opens priority access to Talentbank's expansive employer network – benefits that will directly translate into greater career opportunities for its graduates.

For students and parents, the Employers' Choice Award signals that a Curtin Malaysia degree is not just a certificate; it is a passport to professional success in today's competitive job market.
